Announcement of Receiving First-Ever Selection to CDP Climate Change “A List”

Japan Real Estate Investment Corporation (“JRE”) hereby announces that it has been selected by Carbon Disclosure Project (“CDP”) for its Climate Change “A List” for the first time.

1. About CDP

CDP is a global non-profit charity that runs the world’s environmental disclosure system. In 2022, over 680 investors with over USD 130 trillion in assets requested companies to disclose data on environmental impacts, risks and opportunities through CDP’s platform and a record-breaking 18,700 companies responded.

2. Assessment Result

An assessment questionnaire spanning topics such as governance, risk management, business strategy, and targets and performance is used to score companies among eight levels: Leadership (A/A-), Management (B/B-), Awareness (C/C-), and Disclosure (D/D-). In the 2021 assessment, JRE achieved an “A-” score of the highest Leadership level.

In the 2022 assessment, JRE received the highest score of “A” securing a place on its annual “A List” for the first time. JRE was recognized for its internationally high standards of commitment and information disclosure on climate change issues. 283 companies including 74 Japanese companies made the CDP 2022 “A List” for Climate Change out of nearly 18,700 companies that were scored.
